PROFILE SUMMARY

BCA student with hands-on experience building and deploying full-stack web applications, machine learning systems, productivity platforms, analytics dashboards, and AI-powered tools. Experienced with Python, Flask, React, SQL, Machine Learning, GitHub, Render, and Netlify. Successfully developed and deployed six real-world projects.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

Frameworks: Flask, React, Bootstrap, Tailwind CSS

Databases: SQLite, PostgreSQL (Basics)

Machine Learning: NumPy, Pandas, scikit-learn, Matplotlib

Tools: Git, GitHub, VS Code, Render, Netlify, Jupyter Notebook

PROJECTS

Clarity Bridge – Self-reflection and journaling platform with authentication, dashboards, analytics, and database-backed storage.

AI Resume Analyzer – Resume parsing, skill detection, resume scoring, and analysis platform with PDF processing.

Finlytics Dashboard – Personal finance dashboard with transaction management, analytics charts, and reports.

AI Interview Platform – Interview preparation platform featuring assessments, document processing, and progress tracking.

Crop Recommendation System – Machine learning application for recommending crops using agricultural parameters.

Smart Study Planner – Study planning and productivity platform with task management and analytics.

EDUCATION

Bachelor of Computer Applications (BCA)

Swami Vivekananda University, Kolkata

Relevant Coursework: DBMS, Machine Learning, Artificial Intelligence, Computer Organization & Architecture

ACHIEVEMENTS

- Developed and deployed 6 live projects.
- Built applications using Flask, React, Machine Learning, and SQL.
- Experience deploying applications on Render and Netlify.
